

Rockingham Security Report

Local security guide - Rockingham WA 6168 - South-west Perth, City of Rockingham

About Rockingham

Rockingham is about 47 km south-south-west of the Perth CBD.

Rockingham is the main centre of the City of Rockingham, about 47 km south-south-west of the Perth CBD on Mangles Bay at the southern end of Cockburn Sound, with a beachfront strip, the Rockingham Centre shopping precinct and the Garden Island naval base offshore. WA Police recorded 3,319 selected offences in Rockingham in 2025-26, up from 3,139 the year before. Stealing (1,118) was the largest group, and the year also saw 150 burglaries and 58 motor vehicle thefts.

Housing and local context

Housing stock: Brick-and-tile homes from the 1970s and 1980s, beachside units and apartments, newer estates.

Rockingham's older streets have single-storey brick-and-tile homes on medium blocks, many with a garage or carport and a back gate onto a laneway or reserve. Units and apartments face the foreshore and the beach, and the surrounding area has grown with newer estates to the south and east. Holiday rentals and homes used only part of the year sit alongside permanent residents, so monitored alarms and cameras that can be checked remotely are common requests.

Common security concerns in Rockingham

- Salt air corroding locks, hinges and outdoor cameras near the foreshore
- Burglary and vehicle theft from homes with back gates onto laneways or reserves
- Holiday rentals and part-time homes left empty for weeks

Local tip: Pick hardware that can handle salt air

Salt air off Cockburn Sound corrodes cheap cameras, padlocks and door hardware faster than inland. Near the water, ask for marine-grade or stainless locks and hinges, cameras rated IP66 or better with sealed connectors, and a service check each year. Replacing a seized lock or a fogged camera after a break-in costs more than choosing the right gear first.

Security providers servicing Rockingham

A1 Locksmiths - Locksmiths

Before you hire: checklist

- Look up the licence number on the relevant state regulator register and confirm it is current.
- Check the ABN on the Australian Business Register (abr.business.gov.au).
- Hardwired 240V work needs a licensed electrician; in-wall data cabling needs an ACMA-registered cabler.
- For guards and patrols, confirm both the firm licence and each attending officer's licence.
- Get at least three written quotes listing camera models, recorder storage and warranty.
- Aim cameras at your own property and consider disabling audio on cameras facing shared areas.
